

I would like to commend the K-Love Radio Network for their role in our community. Several times per day they have a local segment that includes a community calendar, in which they announce events and services that are being offered free of charge in the area. If the stations that are heard in Arizona, 105.5, 89.1 and 100.9, were to be forced off the air by LPFM we would be losing a valuable asset to the community. The staff of K-Love Radio care for the people that they reach and they provide staff pastors to talk to anyone who calls in with a problem or prayer request. By losing their voice in Arizona we would have one less place for people in need to turn to.

Anne Myers, Phoenix, Arizona
